Sinn Fein organizations are maintaining secret authorities and guards to protect its leaders, some of whom are reported to have received threatening letters similar to one delivered to Thomas MacCurtain Lord Mayor of this city before he was murdered last week. Last night groups supported by constabulary were stationed at various points in this city with armed guards and machine guns. This protection was maintained while the streets were thronged but later when the crowd dwindled the extra guards were withdrawn. Soldiers and police officers however have remained at the barracks all night ready for any emergency.

The counsel for the Company urged immediate action saying that pickets by shouting and other demonstrations had endeavored to intimidate working employees.

Frank Pinao was held at the police station where officers said a murder charge would be placed against him if the 18-year old boy died. "I shot him to save his soul," the aged man told the police. "I would rather kill him myself than have the police do it. For months I have been worried every time I heard of a 'stick up' for fear my son had been killed. I tried to get him to settle down but he would not do it." Frank Jr., according to court records, shipped into a near crime record when he was 14 years old. Two years later he had become a recognized gambler and repeatedly was arrested. A year ago his father carried him bodily to the police station and had him convicted to a boy's home. CAPT. HARRIS LANING, U. S. N., SAYS CHAOS IN NAVY

Charges Secretary Did Not Act--No Plan of Action

(By Associated Press)
Washington, March 24.—A virtual chaos existed in the navy department at the time the United States entered the war, Captain Harris Laning, Asst. Chief of the Bureau of Navigation, during the war, testified today before the senate investigating committee. Captain Laning said no one knew what to do after a plan of action submitted by the Bureau of Operations had been disapproved and that the "personal characteristics of the secretary of the navy often made it impossible to get approval of real important policies." The American navy not only was not prepared when the United States entered the war but it did not "carry on" in the early days "as efficiently as it should have." Captain Laning testified. "Whenever a plan or policy was presented to the secretary, he almost invariably delayed action on it," Captain Laning declared. "The personal side he took in all matters connected with the department absorbed so much of his time that he never had much left to give to the more important affairs." When important policies and plans were submitted to Secretary Daniels, Captain Laning said, directions would be given to leave the papers for "consideration" and usually these instructions meant that the matter would not be heard from again until the officer interested looked the papers up and then frequently the papers could not be found. "Conditions finally became so bad," the witness said, "that officers used every means possible to get their plans and policies through without obtaining the required authority. I was, and still am amazed, that the navy was able to accomplish the maintainable work it did but it is certain that what it did accomplish could have been done still more quickly and efficiently if it could have had the plans from the start."

SEEK TO CUT PRICE OF OIL

Department of Justice Will
Make Probe.

Washington, March 24.—A movement was started in Congress Tuesday to bring down the increasingly high prices of gasoline and other oils. Representative Dyer (Missouri) introduced a resolution calling on the Department of Justice to make an immediate investigation of the oil situation and report to Congress on the reasons for the present high prices.

Four times since the middle of January the retail price of gasoline has advanced and more increases are expected. Mr. Dyer said. He indicated also that a combination in restraint of trade may be responsible for the present high prices. Mr. Dyer plans to ask early action on his resolution because of the belief of oil experts in the Bureau of Mines that the price of gasoline soon will reach 40 cents.

The Newberry Case.

The famous case of United States Senator Newberry of Michigan, charged with many other with conspiracy to violate the election laws, has come to an end with the conviction and sentence of the Senator and sixteen other men. That is, the first stage of the case has been finished. An appeal will be taken and it is quite within the range of possibility that there may be another trial. That is the usual American way in court cases of any consequence. Mr. Newberry's sentence is two years' imprisonment and \$10,000 fine, the maximum penalty, and those of the others are not so severe, although substantial in most cases.

This is one of the most famous cases of its kind in the history of the country. Mr. Newberry was elected to the United States Senate on the Republican ticket in 1918, his Democratic opponent being Henry Ford, the millionaire automobile manufacturer. Mr. Ford was defeated by a majority of something over 7,000 in a very strenuous campaign, and some weeks later he called for a recount of the ballots, charging that the Newberry campaign managers had made an improper and illegal use of money and performed other unlawful acts in connection with the campaign. The result was an investigation by the grand jury, which in November last indicted Mr. Newberry and more than one hundred others, among whom were many men prominent in the political and business affairs of Michigan. The trial has been going on for many weeks, with the result stated above.

The evidence showed that money flowed like water and that many men were hired at large pay to advance the interests of Mr. Newberry. Just how much money was spent is not definitely known, but it was shown that one of Mr. Newberry's workers told him the campaign would cost \$50,000, which was many times the amount that could have been legally expended. The sentences have been suspended pending an appeal. Mr. Newberry announces that he will continue to act as a United States Senator until the Senate or the Supreme Court decides against him, and there the matter rests for the present.

It is a humiliating affair and one to bring the blush of shame to the face of every honest American. There are laws and laws against the improper use of money in elections, and while everybody knows that these are not strictly lived up to, such a brazen disregard of them as this case presents strikes the people, not only of Michigan but of the country, with staggering force. In commenting upon the case editorially a leading New England newspaper says: "Never in American history has there been a more flagrant case of the cynical and insolent purchase of a state by men of money in conscious and reckless defiance of law."

That is the light in which the cases stand, as developed by the evidence, and it is not a pleasant situation to contemplate. When the election of United States Senators was taken out of the hands of the legislatures and placed in those of the people it was believed that one source of corruption had been swept away, but this case shows that it is possible to practice crookedness on a state-wide scale, provided there are adequate bank accounts at the disposal of the operators.

Whether an effective remedy will ever be found in law is a question. One thing is certain, law will never take the place of common honesty, and the fact that this case worked out as it did shows that some culpability rests on the electorate in Michigan and that not all of the guilt attaches to the authors of the gigantic wrong.

Eagle boat No. 57, will shortly sail from this port to Alaskan waters for patrol duty. Thus will Portsmouth, in a certain sense, be represented in that distant region, and very creditably under Lieut. C. L. Green and his crew of 54 brave men.

The Peace Treaty appears to be down and out for the time being, and present indications are that it will be an issue in the coming national campaign. How acceptable it will be as such to either party remains to be seen.

Send in your applications early if you want any of that "non-rust" asparagus seed that is to be distributed by the State College. If this new vegetable fulfills the claims made for it, it is something well worth having.

Among the presidential aspirants are quite a number who might well follow the example of United States Senator Walsh of Massachusetts and charge up the shouting that is being done for them to "local enthusiasm."

Canada has decided that no more sugar must be exported until home demands are satisfied. What queer people those Canadians must be.

The sand and dust storms of the West are even more tedious and damaging than what the people of the East have been enduring for the last few months. New England has its advantages as well as its disadvantages.

Boston will have Herbert C. Hoover "in its midst" this week, and General Wood early in April. The campaign is on.

MILLIKEN
EXAMINED
BY COURTGovernor of Maine Queried
on Dry Law Action.

Augusta, Me., March 23.—Governor Carl E. Milliken denied in the supreme court today that he had contracted in the name of the state any indebtedness to be paid from the funds of the state for counsel to oppose the action of the State of Rhode Island in the federal supreme court to test the national prohibition amendment.

Governor Milliken who appeared in response to a bill in equity filed by Winfield Scott Reed, a Bangor representative in the legislature, to restrain him from contesting the Rhode Island suit, testified that former Justice Charles E. Hughes was employed by Attorney-General Cuy P. Sturgis in connection with other states to appear as counsel, by virtue of authority vested in the attorney general by the laws of the state.

Chief Justice Leslie C. Combs stated that further briefs might be filed until Monday, and therefore, his decision was reserved.

Attorney-General Sturgis filed an answer denying the allegations in Representative Reed's bill.

Governor Milliken who was the only witness at the hearing added under cross-examination by James D. Rice of Bangor that he had communicated by mail and telegram with the governors of other states, asking them to join the state of Maine in contesting the Rhode Island suit. He said he did not mention the attorney general of Maine or the attorney general of the other states in these communications.

Under examination by Attorney-General Sturgis, Governor Milliken said he was present at a conference in New York before Justice Hughes and Attorney-General Sturgis, but that the greater part of the conversation was carried on by them.

Portsmouth, March 24, 1920.
Dear Madam:
I have just heard about the Song Contest which your committee is conducting for the purpose of securing a Portsmouth song. It is a very commendable plan and I know it will meet with real success.

The Chamber of Commerce will welcome a Portsmouth song. It will have a prominent place on the program at all our gatherings. We know the effect of music and the power which it has to bind the people together in a common cause. Oftentimes, we make a mistake, I feel, in thinking that people will not work together because they are naturally envious and indifferent. The truth is, that we are naturally sociable, but because there are no opportunities for us to work and play together we gradually grow seemingly indifferent. The inevitable result is that when we try to secure something which will be for the good of the community we too often fail because we are unable to gain the united support of the people.

Every success is generally traceable to the existence of good team work. Now good team work is the result of faithful and frequent practice—it is not produced by accident.

This Portsmouth song will serve as good practice in developing that much desired team work. There are so many things which need to be done and can be done if we but work together. I welcome this Song Contest for the promise it holds out for the future of our city.

Very truly yours,
P. A. BELDEN,
President Chamber of Commerce.

Big Jobs for New York

Years of 5000 workmen at the Brooklyn navy yard that they would be idle this spring through lack of work were relieved on Tuesday when it was announced that the navy transport Buford, the "Soviet Ark," and the Shipyard Board Steamship Agamemnon would be repaired there. About \$1,000,000 will be spent on the Agamemnon and \$100,000 on the Buford. The work will take about two months, and then it is expected that construction of two 13,000-ton battleships will be begun.

SOLD LIQUOR
AS PATENT
MEDICINEFour Bennington, Vt., Men
Before Commissioner.

Rutland, Vt., March 23.—Four merchants of Bennington were arraigned before U. S. Commissioner James P. Leamy of this city this afternoon, charged with violations of the 18th amendment. Barney Carter and Nathan Satter, after pleading guilty and going through a preliminary examination in which two or three government revenue officers testified, were held for the next federal grand jury, while George Alexander waived examination and was held for the grand jury.

The case of Isaac Satter was held open for a week and he was placed under bonds of \$300 for his future appearance.

The arrests were made by U. S. Marshal A. P. Chamber of Bennington on warrants issued by Dist. Atty. V. A. Bullard of Burlington. It is understood that some of the evidence was obtained directly by the agents who bought the liquid containing the alcoholic content and which the government claims was sold for beverage purposes, although a patent medicine.

As far as is known, these are the first arrests in Vermont for violation of the Volstead enforcement act. The government claims that the patent medicine was sold in quantities which substantiated the assertion that it was sold for beverage rather than for medicinal purposes.

AMERICA'S GIFT
TO FRANCE

All citizens of Portsmouth will be given an opportunity during the week, which by proclamation has been designated as Marine Memorial Week, to make a free will offering to "America's Gift to France." The idea of the collection is to enroll as participants in the gift to France a total of subscribers that will be numerous. A memorial book containing the names of all the cities, towns and societies which have subscribed will be presented to the French Republic and placed in a museum in the house of the statue in token of the friendship of the two republics. When France raised funds to erect the Statue of Liberty in New York Harbor in 1879 the subscriptions came from rich and poor, young and old from people in every walk of life, in every district of France and that statue was only the gift of France to America. Now an opportunity is given the people in America to contribute to the fund for the memorial gift to that Republic during Marine Memorial Week and everyone will wish to feel that he or she has contributed to this wonderful memorial.

Attorney Harold M. Smith of this city is chairman for the Marine Memorial drive in Rockingham county and this drive from the ordinary drives of the past few years, as the present attempt to raise funds for the gift of a monument to France does not ask or desire large subscriptions. The intention is to receive small contributions from as many Americans as possible. It is proposed to have no house-to-house canvases in the matter but collection boxes will be placed in the local theaters, the Public Library, Portsmouth News stand, Adams Drug store and D. P. Beal's grocery. Contributions may also be given the local chairman.

The contributions from the school children are to be made at the schools and are to be under the direct supervision of the school authorities. It is intended to utilize the efforts of the Boy Scouts on Saturdays to increase the collection locally and it is to be expected that Portsmouth will do its share in this as it has in every other worthy cause.

The annual meeting of the Ladies Aid Society of the Methodist church was held Tuesday afternoon at the Methodist parsonage on State street. The time was devoted to business and the following officers were elected for the year:

President—Mrs. William Hilde.
First Vice President—Mrs. William Barnham.
Second Vice President—Mrs. Chas. Oxford.
Third Vice President—Mrs. John Hilde.
Secretary—Mrs. Charles E. Jenness.
Treasurer—Miss Clarence A. Parmenter.

The executive committee will be the officers and Mrs. Elmer P. Novell, wife of the pastor of the society.

Mrs. J. Howard Gray, the retiring president, who has served long and faithfully, was made honorary president of the society.

The school children of the country will take an important part in the movement to present to the Republic of France a colossal statue to commemorate the gallant, heroic and sacrificial service of the French army.

In many towns in New Hampshire "Marine Memorial Week" is being observed, this beginning March 22. During this week the people will give an opportunity to give their pennies and nickels for the cause. In some towns the American Legion will attend to the canvass of business places and high school pupils will look after the house-to-house canvass.

The officers installed were:

Captain—George E. Cox.
Lieut.—Martin Anderson.
Ensign—R. C. Veno.
Clerk—John H. Veson.

Following the work adjournment was taken to the dance hall where dancing was enjoyed until midnight followed by light refreshments.

SHOES

THE LOW PRICE OF GOOD SHOES

is a matter of interest to most people and at this time we feel that in comparison with prevailing prices our shoes are low priced and ought to be of interest to you.

Black oxfords with military or Louis heels are the prevailing style for women; for men we are showing a snappy English oxford; for children an angle strap low shoe in patent and gun metal calf, while for infants we have an extensive line in patent with white top, all white, brown, and black.

While Kennedy detained the men in conversation from a second story window and the "uniformed men threatened to break down the door, the watchman's wife telephoned police headquarters. Two squads of police were sent to the scene. The men escaped in a motor car as the police came in sight.

So Says Chicago Dentist—
X-Ray to Blame

Chicago, March 23.—General thunders and dentists in attendance on the convention of the State Dental Society, heard these words in an address today from Dr. V. H. Paqua, president of the Chicago Dental Society.

"There is a wave of X-ray pulling in this country. We must have a stop to it, here on account of the X-ray. The X-ray is adjustable. You can read any thing into it. People get an X-ray taken and rush down and buy their teeth pulled. We are fast becoming a nation of dental cripples. Too many teeth are being pulled.

"People place too much reliance upon the physician's diagnosis. A physician says 'Go get your teeth pulled; your luncheon is caused by the toothache' and the patient rushes and does as he is told."

SAYS HE CAME FROM THIS CITY

Pinched Woman in Theatre and Gets Pinched Himself.

Trophine Plank who claims his home port as Portsmouth, but as yet has never anchored here, appears to be on the wrong end of justice as far as the Lowell police court is concerned. Plank was among the spectators at one of the movie theatres on Kase Saturday night. He was not satisfied with watching the cops on the movie screen pinching criminals, but started to do a little of it himself in another way. With his thumb and forefinger, Plank quietly pressed the flesh of a lady in the next seat several times, who decided that she needed no superficial treatment from the naughty high and told the police to do some pinching. The theatre cop held up the ungalled action of the volunteer massager and took him for a ride to the bustle. Judge Bright told the prisoner that there had been several complaints of his character and that it must stop. He ordered Plank to separate himself from \$10 and to behave himself in the future. The woman who made the complaint flinched while giving her testimony in court.

SUPT SLAYTON TO SPEAK

Following his address Mr. Slayton will invite an open discussion of the points covered. As the public school subject is one which is of paramount interest to the community and the individual, the executives of the club are very desirous

that every member who possibly can attend on this occasion will do so. Unquestionably much valuable information will be obtained.

BODY BUILDING TONIC HOLDS VAST STORE OF FOOD VALUE

Scientists Prove Father John's Medicine Is Five Times More Nourishing Than Many Common Foods We Eat.

That Father John's Medicine contains a vast store of food value and strength-building energy-producing elements is established by recent scientific tests. When a scientist states the food value of any product, he does so in terms of "calories" which he defines as the amount of heat used to raise the temperature of one gram of water one degree. A teaspoonful of Father John's Medicine contains 25,715.76 calories. The same quantity of some common foods is 10,711 calories. By these tests also it was proven that Father John's Medicine is five times more nourishing than an equal quantity of cod fish, seven and one-half times more nourishing than an equal quantity of oysters and almost six times more nourishing than pure milk.

Because it supplies this nourishment which you do not obtain from your food and supplies it in the form which the system most easily takes up and turns into tissue, muscle, flesh and strength, Father John's Medicine has for more than sixty years of successful use as a food tonic for those who are weak and run down.

It is guaranteed that Father John's Medicine positively does not contain any alcohol or any dangerous habit-forming drugs or opiates. It is a pure and wholesome, nourishing tonic food—a doctor's prescription, not a patent medicine. Begin taking it today.

It Bears Scrutiny.

They say you mustn't look a gift horse in the mouth,
but you can look a gift divan ever so sternly in the up-
holstery—if it's the right kind of divan. Margeson
Brothers specialize in the right kind. Furniture bought
at this store is the sort that bears close scrutiny and will
stand up under the test of time. Furthermore it is built
from correct and pleasing designs, so that time only
brings out its beauty of line and proportion.

To be the right kind, furniture must be comfortable
as well as sound and beautiful, and in this particular
also, we aim to satisfy the most exacting. Our over-
stuffed chairs and davenport are models of ease and
restfulness and even in the smaller models the question
of comfort has been made an important issue.
